How Do You Post A Review?

1. Go to www.wordpress.com
2. Log in with the following username and password:
User name: madisonteen
Password: madison*
3. On the left side the opening page you will see a box that says “Welcome back, madisonteen”. In the box there is a list of blogs; click on *slbookblog*
4. You will be directed to a page titled *Dashboard*.
5. On the right hand side of the *Dashboard* page is a box titled *QuickPress*.
6. In the *QuickPress* box, type the title of your book in the title field.
7. Type your review in the content field.
8. Add any tags. You can tag your book with any words you would like – these are words that you feel would be of interest to someone looking for the book.
9. When finished, click *submit for review*. That's it!

Your review will NOT be posted until I review it. WordPress will notify me when there are “drafts” pending review. Therefore, on the top of the screen, you may see drafts submitted by others waiting for approval. Please do not edit any one else's postings! But do feel free to add comments to other reviews. **Please put your full name on your draft**, I will delete the last name before publishing and will add cover photos of the book.
